

1 TD Ameritrade does not offer an online option to set up your username and password. Your username and password must be created via phone with their Service Department.

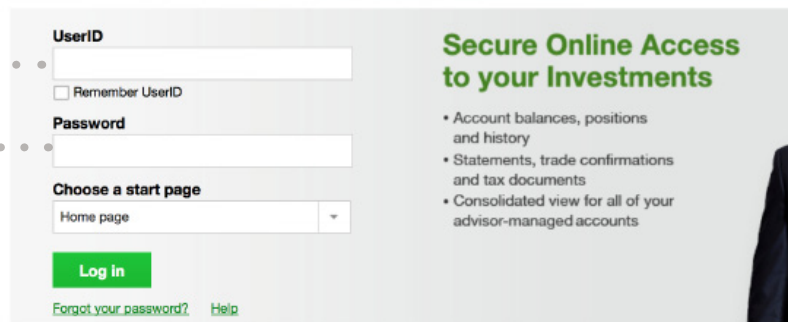

2 You may dial **800-431-3500** and then **Press 3** for Service. 

TD Ameritrade will then create a username and password over the phone for you to use when accessing your accounts online.

3 When you are ready to login please go to **www.advisorclient.com**

4 Insert the username and password provided to you over the phone in order to login to TD Ameritrade.

The screenshot shows the login interface with the following elements:

- UserID** input field
- Remember UserID
- Password** input field
- Choose a start page** dropdown menu (set to Home page)
- Log In** button
- [Forgot your password?](#) and [Help](#) links
- Secure Online Access to your Investments** section with a list of benefits:
 - Account balances, positions and history
 - Statements, trade confirmations and tax documents
 - Consolidated view for all of your advisor-managed accounts
